SOLID WASTE FACILITY PERMIT

Facility/Permit Number: Johnson Canyon Landfill 27-AA-0005

12. Legal Description of Facility (attach map with RFI):

Sections 15 and 22 of Township 16 South, Range 5 East, APN# 223-041-018.

13. Findings:

- a. Pursuant to Public Resources Code (PRC), Section 50001 (a) (1), this facility is a solid waste disposal facility identified and described on pages 3 and 4 of Section 4.1 in the county-wide siting element, which has been approved pursuant to PRC Section 41721. The County-wide Siting Element for Monterey County, dated April 1995, was approved by the California Integrated Waste Management Board (CIWMB) in 1997.
- b. This permit is consistent with standards adopted by the CIWMB. PRC 44010.
- c. The Local Enforcement Agency (LEA) has determined that the design and operation of the facility is in compliance with the State Minimum Standards for Solid Waste Handling and Disposal, based on a review of the permit revision application package, submitted on December 03, 1999, and an inspection of the facility conducted in February, 2000.
- d. A Mitigated Negative Declaration (SCH # 99091134) was adopted on November 18, 1999 for the increase in the permitted daily tonnage of solid waste disposal at the Johnson Canyon Landfill to 300 tons per day.

14. Prohibitions:

The permittee is prohibited from accepting any non-hazardous waste requiring special handling, designated waste, radioactive waste or hazardous waste unless such waste is listed in Condition 17 (c) of this permit, and unless the acceptance of such waste is authorized by all applicable permits.

15. The following documents also describe and/or restrict the operation of this facility:

SOLID WASTE FACILITY PERMIT

Facility/Permit Number: Johnson Canyon Landfill 27-AA-0005

7. LEA Conditions:

- (a) This facility shall comply with the State Minimum Standards for Solid Waste Handling and Disposal.
- (b) Without prior written approval from the LEA to allow otherwise, waste may be accepted only during the hours described in the most recent Report of Disposal Site Information (RDSI).
- (c) This facility is only permitted to receive the following types of non-hazardous solid waste: mixed municipal, residential, commercial, industrial, construction and demolition debris, wood waste, metal salvage, double-bagged non-friable asbestos (under 1 cubic yard), agricultural wastes, and tires.
- (d) Additional information concerning this facility shall be provided if required by the LEA
- (e) The permittee shall notify the LEA in writing, at least 150 days in advance of any proposed significant changes in the design/operation of the facility, to allow for early consultation, completion of all required environmental documents and their due process review/filing and the attaining of all other required documents or permits.
- (f) A copy of the most recent printing of the State Minimum Standards for Solid Waste Handling and Disposal, a copy of this and all other permits issued for the operation of this facility, a copy of the RDSI and a copy of the most recent LEA inspection report shall be maintained at the site or at an LEA approved location. These documents must be available for review by authorized representatives of the LEA, the CIWMB, or other regulatory agencies
- (g) The permittee shall notify the LEA, and maintain at the facility a log, of special/unusual occurrences. These special/unusual occurrences include incidents such as, but not limited to: fires, explosions, discharges of unusual waste, tonnage exceedance, significant incidents of personal injury, accidents and/or property damage, all complaints, including health or safety nuisance or hazard complaints, by the public, regulatory agency inspections, etc. Notifications to the LEA shall be both verbal and written and shall be transmitted within 48 hours of the occurrence. Each log entry shall be accompanied by a summary of the responses/corrective actions taken by the operator to mitigate any negative impacts of each occurrence. The log must be filled in daily; days without incidents shall be noted with an appropriate entry such as: "No special occurrences today." The permittee shall maintain the log at the facility in a manner readily accessible to facility personnel and to the LEA or other regulatory personnel.
- (h) This permit is subject to periodic review and may be modified, suspended, or revoked, at any time by the LEA for sufficient cause in accordance with Article 2, Chapter 4, Part 4, Division 30 of the Public Resources Code. The LEA may also prohibit or condition the handling or disposal of solid wastes at this facility to protect public health and safety; to protect, rehabilitate, or enhance the environment; or to mitigate adverse environmental impacts
- (i) The SVSWA shall ensure that solid waste tonnage intake for disposal remains at or below 300 tons per day by employing options stated in the March 5, 1999 letter to the LEA.
- (j) The permittee shall continue to collect and dispose of leachate as per the regulations contained in Title 27 and the WDR's.
- (k) The permittee shall maintain adequate fencing for the protection of users and nearby residents.
- (1) The permittee shall insure that the contractor provides ongoing employee training per the contract operator's training plan, and as specified in 27 CCR §20610.
- (m) Cover shall be applied to the operating face in accordance with 27 CCR §20670 et seq.
- (n) The permittee shall provide employee safety facilities as required by OSHA regulations.
- (o) Should operations continue after dark, the permittee shall provide additional temporary or permanent lighting facilities which shall be placed into use to assure employee and customer safety.
- (p) The permittee shall maintain the gas monitoring, collection and destruction facilities as per the RDSI and shall not violate the Stipulated Orders of Compliance and Agreement, (STIP) issued by the LEA, regarding the operation of this landfill.
- (q) This permit supersedes all previous Solid Waste Facility Permits for this site, and Stipulated Orders of Compliance Numbers 97-04 and 99-01.

- d) Construction/demolition wastes
- e) Agricultural wastes

The design and operation of this facility existing immediately prior to August 15, 1977 were described in the Report of Disposal Site Operation, submitted by the operator on July 26, 1977.

- 2. There are no proposed changes in the operation of this site for the next five years.
- 3. The following documents condition the design and operation of this facility:
 - a) Waste Discharge Requirement #76-42 issued by the Central Coast Regional Water Quality Control Board.
 - b) California Division of Forestry Rubbish Dump Permit \$5-0174
 - c) Monterey County Planning Commission Use Permit #2440
- 4. Land within 1,000 feet of the site is used for grazing or agriculture.
- 5. The current operations are in conformance with the State Minimum Standards for Solid Waste Handling and Disposal.

Thir permit is granted solely to the operator named above, and is not transferable. Upon a change of operator, this permit is subject to tevocation. Upon a significant change in design or operation from that described by the Plan of Operation of the Report of Station of Disposal Site Information, this permit is subject to revocation, auspension, or modification.

This permit tipes not authorize the operation of any facility contrary to the State Minimum Standards for Solid Waste Handling and Disposal. This permit cannot be considered as permission to violate existing laws, ordinances, regulations, or statutes of other government agencies.

Page 2 of 2

The Johnson Canyon Sanitary Landfill is consistent with the Monterey County Solid Waste Management Plan.

CONDITIONS

Requirements

- 1. This facility must comply with all of the State Minimum Standards for Solid Waste Handling and Disposal.
- This facility must comply with all federal, state, and local requirements and enactments
- 3. Additional information concerning the design and operation of this facility must be furnished upon request of the enforcement agency.

Prohibitions

- 1. The following actions are prohibited at the facility:
 - a) Disposal of hazardous wastes
 - b) Burning
 - c) Disposal of any liquid wastes
 - d) Scavenging

Specifications

1. No significant change in design or operation from that described in items #1 and #2 of the Findings Section is allowed, except for those changes which are required under the "CONDITIONS" portion of this permit.

Provisions

1. This permit is sibject to review by the enforcement agency and may be suspended, revoked, or modified at any time for sufficient cause.

Self-Monitoring Program

- 1. The following items shall be monitored by the operator of this facility or his agent and records kept and made available to the enforcement agency upon request:
 - a) Quantity and types of waste received
 - b) Area of site utilized
 - c) Number and type of Vehicles using the site per day
